To whom it may concern:

The proposed settlement is a bad idea. It is not near adequate enough.  
Period.

A single company having this much control over the huge market that it does can, has, and will continue to result in abusive behaviour towards anyone not in their camp. To co-exist peacefully is not their goal. It is to crush any and all opposition, and I can not stand idly by watch while this continues. It affects us all whether we realize it or not.

Thank you.
